## Snake Creek Mines.

Snake creek canyon has been pro-  
spected for precious metals almost  
from the earliest days of mining in  
this state and long before the discov-  
ery of the great Ontario or the build-  
ing of Park City. Some very rich ore  
has been taken out along the north  
slope of the canyon in many places.

The Baunanza flat has passed through  
several mining excitements on ac-  
count of the discoveries that have  
been made there and claims on that  
flat are considered to be valuable  
holdings. All miners agree that there  
must be large bodies of valuable ore in  
that mountain but no true luster veins  
have been discovered, on the Wasatch  
county slope, unless it be on the Baunanza flat.

The most of the territory described  
above is located and much of it is  
patented and the prospectors beginning  
at the head of the canyon are as fol-  
lows: The Mount sin Lake Mining  
company has about 40 patented claims  
extending from the Park City slope  
along the ridge at the head of Snake  
Creek and over into American Fork  
canyon and covering a large tract of  
ground in the big cottonwood canyon.

This company has recently purchased  
the steam out property in the head of  
Snake Creek consisting of about 30

## MIDWAY.

SPECIAL CORRESPONDENCE.

The new barber shop which was  
started by Frank Clayburn last week  
seems to be doing a good business.

We are glad to see this for a first  
class barber has been needed here for  
some time.

We understand that D. S. Murdock  
has opened a new market in a build-  
ing adjoining his store. We wish  
him success in his venture.

On account of the scarcity of coal  
some of our citizens have been hunt-  
ing from Park City.

Jos. W. Francum, formerly bishop  
of the first ward of Midway but now  
a resident of Deweyville, Utah, is in  
town visiting friends and looking  
after some property which he has  
here.

Five or six families have been  
placed under quarantine for small  
pox this week.

Ed Culmer of this place is home  
from Milford, Utah, where he has  
been engaged in the mining business  
as a lessee. He expects to return  
after the holidays.
